AERFLOW™ AIR FILTER ELEMENT

- Insures Longevity of Compressor
- Easy Installation
- Replace Every 2 Years

40.1305

40.1302

Clean air-flow through the compressor helps safeguard your system and greatly extend its life-span. The AerFlow™ Air Filter Element should be replaced on all ProLake™, KR, DR, TR and QR systems every 2 years or as needed to ensure a longer life for your aeration system. Installation is extremely easy and takes a maximum of 5 minutes to mount.

Kit Includes:

- 1 Replacement Filter Element
- 1 Gasket
