AERFLOW™ ROCKING PISTON COMPRESSOR

- ½ HP Rocking Piston Compressor
- 5.3 CFM & 50 PSI
- 115V or 230V Options
- Low Power Consumption
- 2 Year Warranty

AerFlow™ Rocking Piston Compressor features a powerful compressor capable of delivering 5.3 CFM and 50 PSI while maintaining low vibration, whisper quiet operation. The AerFlow™ is made from a die cast aluminum, thin-walled, anodized cylinder. Its unique, corrosion resistant design and thermal overload protection ensures a long and service free operational life. The AerFlow™ Rocking Piston Compressor fits all ProLake™ lake bed aeration models.

Item Number:

40.1231: AerFlow™ ½ HP Rocking Piston Compressor 1/2 HP Dual Piston (115V Pin & Sleeve Plug)

40.1232: AerFlow™ ½ HP Rocking Piston Compressor 1/2 HP Dual Piston (230V Pin & Sleeve Plug)

Fits All ProLake™ Aeration Systems

Replacement Compressors For Systems Built Prior To Jan. 2015

40.1221: 1/2 HP Dual Piston Compressor (115V 3-Prong Power Plug)

40.1222: 1/2 HP Dual Piston Compressor (230V 3-Prong Power Plug)
