

CLEARLAKE™ COLD WATER CLARIFIER

- Most Effective At Temperatures Below 52°F/11°C
- Cleans & Clears Entire Water Column
- Reduces Harmful Organic Material
- 100% Safe & All-Natural

When cold weather hits, your pond or lake still needs attention. ClearLake™ Cold Water Clarifier is formulated to clear water quickly in water temperatures below 52°F/11°C. The individually selected, beneficial bacteria strains work hard throughout the winter months to remove organic materials such as leaves, twigs and fish waste.
