

PROLAKE⁵ 370

FOR IMPOUNDMENTS UP TO 14 ACRES

- Fracking Pond Applications
- Delivers Over 8 CFM 24/7
- Utilizes Tough Dual Duraplate™ Diffusers
- Rugged Design To Withstand Harsh Environments

Impoundment Package Features

23.2 HP Oilless Regenerative Blower
370 CFM Open Flow
34.5Y Amps Start@460V
460/60/3
Maximum 281" Water Column Differential Pressure
Outlet Adapter With Pressure Relief Valve
Blow-Off Valve
Flexible High Temperature Vibration Isolator Hose
Inlet Fitting Includes Industrial Air Filter With Replaceable Element
Electrical Panel/NEMA Outdoor Rated
Manual Motor Starters
TEFC Motor Class F Insulation
UL Listed

60' Galvanized Metal Compressor Outlet Air Pipe - 3"
(For Heat Dissipation With Appropriate Fittings To Hairpin & Connection To Blower)

Up To 20 Dual Duraplate™ Air Diffusers
Depending On Final Size

Between 11,000 To 14,000 Feet Of 3/4" Alpine™ Weighted Airline
Depending On Final Size

Between 1200 To 1500 Feet Of 3/4" Gates Adaptaflex™ Tubing
Depending On Final Size

Product Notes

Electrical panel and blower rated for outdoor installation, blower mounted on galvanized steel pallet all-welded construction outdoor/industrial rated, ready to set and connect. Control panel shipped loose for site installation on power pedestal by customer's electrician. System includes fittings and clamps to install 3/4" Alpine™ Weighted Tubing and Diffusers. Includes clamps and fittings to connect 3/4" Adaptaflex to 3/4" Alpine™ Self Weighted Tubing at toe of berm (in most cases). Installation, customer to provide 2" End Welded Air Distribution Trunk Manifold and 3/4" Airflow Adjustment (Ball) Valves (Qty. 20) with Male Adapter (3/4" Npt X 3/4" Spiral Barb) for each Airflow Outlet on Trunk Manifold.

6.17HP Oilless Regenerative Blower

Duraplate™ Dual Diffuser

Alpine™ 3/4" Weighted Airline

Black 3/4" Adaptaflex™ Airline

40' Galvanized Metal Compressor
Outlet Air Pipe - 2"
