

# PROLAKE

## AerFlow™ Compressor Filter Element

### Product Details

#### SKU

**40.1305**

#### VOLTAGE COMPATIBILITY

» Works with 115V and 230V systems

#### DESCRIPTION

To ensure the long-lasting performance of your ProLake AerFlow Compressor, it is recommended to replace the filter every 6 months. Regular maintenance, including filter replacement, helps ensure the longevity of the compressor and is easy to perform. The replacement filter, sold in a single pack, is compatible with both the ProLake and Quietline Aeration Systems.

**Insures Longevity  
of Compressor**

**Easy Installation**

**Replace Every  
6 Months**
