DESCRIPTION

For optimal performance, it is recommended to install the AerFlow Compressor Repair Kit in your Electric Aeration System every 18 months. This kit includes replacement gaskets, seals and piston sleeves, effectively reducing daily wear and tear and significantly prolonging the compressor unit's lifespan. The AerFlow Compressor Repair Kit is compatible with all ProLake Electric Aeration Systems.

**Insures Longevity
of Compressor**

Easy Installation

**Replace Every
18 Months**

**Fits all ProLake™
Aeration Systems**
