Fits all Models of Aeration Systems

DESCRIPTION

Alpine Self-Weighted Tubing offers the perfect balance of flexibility and weight. Our tubing is a high density, flexible tubing that features a thick 1/4" sidewall with an inner diameter of 1/2". The amount of tubing you need is based on your pond layout and cabinet placement. Give us a call and get a free pond layout to determine how much tubing you need; in most cases, we can give you the answer while you're on the phone.
